How a Visit Works

Step	What Happens
1. Intake & Consultation	Your visit begins with a thoughtful consultation where Natasha reviews your intake form, listens to your concerns, and learns about your goals, lifestyle, and current routine.
2. Skin Analysis & Facial Assessment	A detailed skin analysis evaluates your skin type, conditions, sensitivities, and patterns. During your facial, she observes how your skin responds in real time to exfoliation, hydration, and touch — giving a clear picture of what your skin truly needs.
3. Customized Treatment Plan	Based on your analysis, a personalized treatment plan is created — including recommended services, ideal frequency, and homecare guidance, plus what today's session focuses on and how future sessions build progressive, long-term results.

3. About Natasha

Hi, I'm Natasha (Marie) - a full-time working boy mom, Navy Veteran, Lean Six Sigma Black Belt practitioner in supply chain management, and a lifelong skincare lover. After years of personal experience in skincare and a career built on problem-solving, I decided to attend esthetics school to serve others with intention, responsibility, and care.

My esthetics philosophy follows the **80/20 rule**: 80% of your skin results come from your home routine, and 20% comes from professional treatments.

I research ingredients and products carefully to match each client's unique skin needs. No matter how expensive a product is, you will never get the results you are looking for if it is not right for your skin.

My goal is long-term, personalized results that last.

As a working mom myself, I understand the need for simplicity and flexibility. That's why I offer virtual consultations to make skincare accessible from anywhere.
